What's New in the No IRC Who?

System Requirements For No IRC Who:

*An AMD Radeon graphics card is recommended but is not required. We recommend using an Nvidia graphics card, as it is known to provide a more stable experience. If you are using AMD, we suggest using a R9 graphics card. *Minimum system specifications may vary based on the the video settings you choose and the video quality you choose. If you are experiencing issues, please report them by submitting feedback to *For Mac users, the application requires the use of a Thunderbolt 3 port to connect to the device. Please visit
