The event is Khalil's attempt to reach out to the audience of nonbelievers that he didn't have access to while growing up in the Pakistani-American community in the Bronx, New York City. Khalil says he was not allowed to attend mosque or use religious symbols while growing up, and to this day he does not understand much about religion. "I understand most of my family's religion but not much," says Khalil, who grew up attending the Islamic Society of North America mosque in New York. "I am still searching for my purpose in life. I'm still looking for God." The festival will feature musical performances by alternative artists as well as keynote speakers with backgrounds in science, philosophy, mathematics, and political activism. "The purpose of the festival is to have a space to discuss life and its challenges," Khalil says. "My intent is to bring together my diverse community to break the boundaries of society." The event is open to the public and will take place in Rutgers University's Bender Arena. "I do see the Free Your Mind Festival as a catalyst to inspire people to engage in a deeper intellectual discussion about the world we live in," says Linda Woodhead, a Rutgers biology professor and adjunct faculty member at the University of New Mexico. "The festival encourages the diversity of

The audio instruments that they have created are professional quality, and aim to help both seasoned and novice composers and musicians to become better at creating music. Most of the instruments are their own original creations, rather than being based on stock samples. The instruments are versatile, and can be used to create a wide range of musical styles and genres. They can work with both midi and audio inputs, and they have a range of features and options to offer. One of the most interesting aspects of the audio instruments is that they are designed to be quite easy to use, and will be very easy to put together for novice users. These audio instruments are licensed to their clients, and can be used to create amazing music. The instruments are highly customisable, and as well as a range of different presets, their creators can even provide 2edc1e01e8
