Description: 1. HOW TO USE 1. 1. CHANGE THE SCENE You can create a scene from images of web sites, high-resolution photographs, from your own hard disk. You can select the scene settings, such as the background, the face/body position, the body/face size, and you can also define the colors. You can choose whether the face/body is present from the beginning or will appear later on the scene. You can also display all faces/bodies on one page, as well as specific

faces/bodies from the history. 2. 2. CREATE A FACE/BODY You can create a new face/body by selecting the face/body you want from the list or by highlighting the face/body on the picture. Then you can give it a name, outline it by clicking in the corresponding face area, and place it on the scene. You can also select the position in the scene where you want the face to appear. The face/body that you have defined, can be moved around to find the best position.

### 3. 3. DEF
